Worry-free pipetting is here with the only tip that clips

Thermo Scientific F1-ClipTip GLP kits

Thermo Scientific™ F1-ClipTip™ GLP kits offer a mix of single and multichannel pipettes packaged with compatible tips and a pipette stand. Choose the right kit along with multichannel pipettes for worry-free pipetting and achieve newfound confidence with the Thermo Scientific ClipTip pipetting system.

Key Features & Benefits

- Eliminate the frustration of banging tips on the pipette - tips will lock in place with the lightest touch
- Enable consistent and reproducible pipetting from user to user - higher quality results and more efficient research
- Reduce the risk of loose or leaking tips - once ClipTip pipette tips are on they are sealed and will not loosen until ejected

Item Code	Description	Unit	Price
FNP4701140N	Kit 1: 1x 1-10 µL, 1x 10-100 µL, 1x 100-1000 µL	EA	\$750.00

For performance and ergonomic comfort make Thermo Scientific Finnpiquette F1 GLP kits the choice for your lab

Thermo Scientific™ Finnpiquette™ F1 GLP kits offer a variety of single channels in a range of volumes that are packaged with compatible Finntip™ tips and a convenient pipette stand. Choose the right kit required for pipetting in these all-inclusive kits and take advantage of the Finnpiquette F1 performance and lightweight design. Add on a F1 multichannel pipette to your selection to maximise pipetting reliability and comfort.

Key Features & Benefits

- Ergonomically in-touch - light weight handle design combines with low plunger, tip attachment and ejection forces
- Silent effortless volume adjustment and secure volume lock
- Adjustable comfort - 120° adjustable finger rest for both right and left handed operator comfort, allows the hand to relax during pipetting cycles
- Super blow out - 150% increase in air boost to ensure efficient delivery of micro-volumes
- CE marked and 5 year warranty with online registration

Special price and free serological pipettes

Your cells deserve the best

Enhance cell attachment, growth and differentiation with Thermo Scientific™ Nunc™ cell culture treated EasYFlasks™. These flasks receive the Nunclon™ Delta surface treatment that offers maximum adhesion for a broad range of cell types.

- Nunclon Delta certification, including testing on four different cell types, provided in each case
- Two cell lines and one primary cell culture for monolayer formation
- One cell line for cloning efficiency
- Sterilised by gamma irradiation and certified non-pyrogenic
- Ergonomic angled-neck design with a 1/3 turn to open, available in filter or vent/close cap
- Made in Denmark (for the past 60 years!)

Special price and purchase three cases and receive a case of 5 mL or 10 mL new Nunc serological pipettes of your choice free

Quality from start to finish

Reliability • Reproducibility • Scalability • Traceability • Security • Simplicity

Item Code	Description	Unit	Price
Nunclon Delta EasYFlask with filter cap			
NUN156367	25 cm ² EasYFlask with filter cap	Case of 200	\$155.00
NUN156499	75 cm ² EasYFlask with filter cap	Case of 100	\$129.00

Buy 2 and save

Thermo Scientific™ Nalgene™ Rapid-Flow™ sterile disposable filter units with PES membrane provide fast flow rate and high throughput. Low protein binding PES membrane with low extractables are the best choice for sterile filtration of cell culture media, serum, additives and buffers.

Increase sample protection and filtration efficiency

- Filter cup unscrews from storage bottle for easy access to filtrate
- Non-pyrogenic, non-cytotoxic and leakproof
- Gamma radiation sterilised and individually bagged with 5-year shelf life
- 0.2 µm units protect against bacterial contamination

*Price when purchasing 2 cases or more

Item Code	Description	Unit	Price*
NAL564-0020	50 mL, 0.2 µm, 50 mm membrane diameter	12pcs	\$125.00

Break the glass habit and switch to plastic

Thermo Scientific Nalgene desiccator with stopcock

- Clearly view contents with transparent PC cover
- Robust polypropylene body makes it lighter in weight than glass
- Room temperature use only and can be used with or without a vacuum

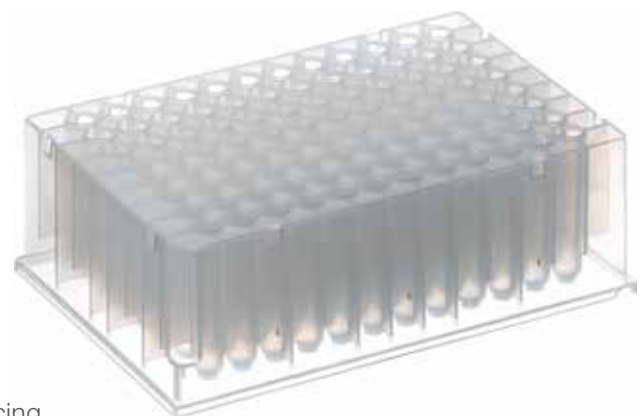

Item Code	Description	Unit	Price
NAL5310-0250	250 mm with PTFE stopcock, without desiccator plate	EA	\$165.00
NAL5312-0230	230 mm desiccator plate only autoclavable	EA	\$100.00

Buy 2 and get 30% off*

Thermo Scientific™ storage plates

- Choose either 0.8 mL or 1.2 mL
- 96-well format
- Ideal for cell culture suspension, sample storage and assay set-up

*Discount applies to list price, not in conjunction with special pricing

Item Code	Description	Unit
ABGAB-0564	1.2 mL U-bottom individually wrapped	50pcs
ABGAB-0859	0.8 mL conical bottom bulk pack	50pcs

Disinfect quickly and easily with just one wipe

Antibacterial wipes

- Presaturated wipes in resealable dispensers, minimising dry out
- Suitable for surface and equipment disinfection

Item Code	Description	Unit	Price
LABAB901	Mediwipe contains 70% ethanol 200 x 140 mm	160pcs	\$14.00
LABASO130322	Azowipe contains 70% isopropyl alcohol 200 x 220 mm	200pcs	\$55.00

Every day glove for every day use

LabServ® latex gloves

- Chlorinated and textured, provides extra strength and secure grip in wet and dry conditions
- Ultra low protein content (less than 100 µg/g), reducing the risk of reactions
- Ambidextrous for greater comfort, fit and feel

Item Code	Description	Unit	Price
LBS80200	Gloves latex powder free x-small	100pcs	\$9.00
LBS80201	Gloves latex powder free small	100pcs	\$9.00
LBS80202	Gloves latex powder free medium	100pcs	\$9.00
LBS80203	Gloves latex powder free large	100pcs	\$9.00
LBS80204	Gloves latex powder free x-large	100pcs	\$9.00

Thermo Scientific Nalgene Right-to-Understand safety wash bottles featuring Globally Harmonised System (GHS) labelling

- Printed with 100% GHS chemical safety information. No other system marketing are used on the bottles, eliminating confusion
- Bottles made from high quality LDPE for low extractables and long life in the lab
- Colour coded for easy chemical identification at a glance

Item Code	Description	Unit	Price
NAL2428-0502	500 mL Ethanol LDPE Right-to-Understand wash bottle - white closure	EA	\$9.50
NAL2428-0503	500 mL Methanol LDPE Right-to-Understand wash bottle - green closure	EA	\$9.50
NAL2428-0504	500 mL Isopropanol LDPE Right-to-Understand wash bottle - yellow closure	EA	\$9.50
NAL2428-0505	500 mL Distilled water LDPE Right-to-Understand wash bottle - natural closure	EA	\$9.50
NAL2428-0506	500 mL Sodium hypochlorite LDPE Right-to-Understand wash bottle - white closure	EA	\$9.50
NAL2428-0507	500 mL Deionised water LDPE Right-to-Understand wash bottle - natural closure	EA	\$9.50

Temperature readings in less than one second

Infrared single and dual laser thermometer guns

- Easy to use - Turn on, point at sample and take temperature reading
- Display backlight permits viewing in low light conditions
- Non-invasive measurement and suitable for solids, semisolids and liquids
- Comes with a Traceable™ calibration certificate valid for 2 years after manufacture

Item Code	Description	Unit	Price
FSH06-664-38	Single laser for maximum temperature readings -60 to 500°C range 0.1°C resolution and accuracy of ± 2% of reading or ± 2°C. 11:1 field of view	EA	\$175.00
FSH06-664-254	Dual laser with Type-K probe for reading comparison -60 to 500°C infrared and Type-K -64 to 1400°C range 0.1°C resolution ± 2% of reading or ± 2°C accuracy 12:1 field of view	EA	\$215.00

For thermometers you can rely on, choose Traceable

Calibrated to NIST standards and NATA recognised

- Suitable for temperature range of -50 to 300°C
- Traceable calibration certificates with every thermometer

Item Code	Description	Unit	Price
FSH14-648-44	Shock and water resistant 0.1°C resolution between -20 to 200°C, otherwise 1°C and ± 1°C accuracy	EA	\$42.50
FSH15-078G	Pocket size 0.1°C resolution between -20 to 200°C, otherwise 1°C and ± 1.5°C accuracy	EA	\$51.50
FSH14-649-100	Waterproof food 0.1°C resolution between -20 to 200°C, otherwise 1°C and ± 1.5°C accuracy	EA	\$35.00

Stock up on dairy testing essentials

Consumables for milk sediment testing

Item Code	Description	Unit	Price
LBSS2000	Milk sediment test funnel	EA	\$320.00
CLDSP20	Filter pad with information card	500pcs	\$275.00
CLD151	Lintine filter strips	220pcs	\$120.00

Quick, quiet and convenient

Thermo Scientific Heraeus Pico and Fresco microcentrifuges

Thermo Scientific™ Heraeus™ Pico™ and Fresco™ microcentrifuges combine power, versatility and convenience in a safe, compact, easy-to-use lab instrument. Designed to accelerate your routine sample preparation, these units provide high speed and generous capacity along with outstanding safety and convenience.

- Standard 24 x 1.5/2.0 mL rotor also accommodates mini-preps and spin columns
- Unique ClickSeal® biocontainment rotor lid ensures maximum sample protection
- Intuitive controls and easy-to-read display simplifies operation
- Quiet performance (<56 dBA Pico and <50 dBA Fresco)

Item Code	Description	Unit	Price
THR75002410	Pico 17 ventilated microcentrifuge with 24 x 1.5/2.0 mL rotor & ClickSeal biocontainment lid. Max RCF: 17000 x g	EA	\$2,390.00
THR75002420	Fresco 17 refrigerated microcentrifuge with 24 x 1.5/2.0 mL rotor & ClickSeal biocontainment lid. Max RCF: 17000 x g	EA	\$5,490.00

Spectrophotometers - see the light

Laboratories around the world rely on Thermo Scientific spectrophotometers

- Quick, easy measurements
- Rugged construction
- Reliable results
- Recommended for teaching labs and basic research applications
- Micro-volume options

Item Code	Description	Unit	Price
NDTND-NDLITE	Spectrophotometer NanoDrop™ Lite for 1 µL samples	EA	\$7,030.00
UNI840-277300	Spectrophotometer GENESYS™ 30 visible single beam scanning capability / 325-1100 nm / 5 nm bandwidth	EA	\$3,750.00
UNI840-281600	Spectrophotometer Spectronic™ 200 wth onboard software, includes cell and test tube holder	EA	\$3,080.00

Thermo Scientific™ Thermolyne™ premium large muffle furnaces

A rugged furnace with multiple safety features, ideal for industrial applications including ashing and gravimetric analysis

- 1200°C max temperature
- 4 elements in top, bottom and sides for enhanced temperature uniformity
- Built in vent port to remove moisture and contaminants
- Adjustable alarm for over temperature protection
- Door safety switch stops power when door is opened

Item Code	Description	Unit	Price
BARF6020C-33	14 L furnace with single set point controller	EA	\$6,995.00
BARF6020C-33-80	14 L furnace with 8 step programmable controller	EA	\$8,475.00
BARF6030CM-33	14 L furnace with 4 x 16 step programmable controller	EA	\$9,620.00

Thermo Scientific™ Precision™ unstirred waterbaths

Precision redefined for your lab - the ultimate in performance and reliability

- Simple to operate and monitor with icon-based graphical display, and four stored pre-sets
- Small footprint to free up valuable bench space
- Baths supplied with clear polycarbonate lid, diffuser tray, rubber duck and drain hose for tanks 10 L and above
- Adjustable alarm for over temperature protection
- Advanced microprocessor controller is designed for extended functionality
- Temperature range: ambient +5°C to 99.5°C

Item Code	Description	Unit	Price
BARTSGP02	Precision unstirred bath 2 L	EA	\$1,050.00
BARTSGP05	Precision unstirred bath 5 L	EA	\$1,150.00
BARTSGP10	Precision unstirred bath 10 L	EA	\$1,320.00
BARTSGP20	Precision unstirred bath 20 L	EA	\$1,650.00
BARTSGP28	Precision unstirred bath 28 L	EA	\$1,750.00

Thermo Scientific™ Savant™ DNA120 Speedvac™ concentrator

Our easy-to-use, small capacity DNA120 is the ideal choice for nucleic acid applications

- Corrosion resistant, PTFE coated chamber provides years of lasting service
- Choice of three drying rates
- Integrated and compact design and extremely quiet operation
- Built-in, oil free vacuum pump provides maintenance-free operation

Item Code	Description	Unit	Price
SAVDNA120-230	DNA 120 Speedvac with 36 x 1.5 mL rotor	EA	\$11,530.00

Thermo Scientific™ Heratherm™ advanced protocol incubators

Whenever you require exceptional performance with superior temperature uniformity and a focus on sample safety, look no further.

- Tight market leading spatial uniformity and stability: No cold spots and allows the whole chamber to be utilised
- Dual convection with fully adjustable fan speed 0-100%
- Broad temperature range from ambient +5 to 105°C
- Ease of use: intuitive user interface, timer and alarms. Stainless steel interior with rounded corners for easy cleaning and corrosion resistant

Item Code	Description	Unit	Price
HEA51028133	IMH60 Advanced protocol incubator 66 L	EA	\$3,100.00
HEA51028134	IMH100 Advanced protocol incubator 104 L	EA	\$3,650.00
HEA51028135	IMH180 Advanced protocol incubator 178 L	EA	\$5,350.00

Thermo Scientific Heratherm refrigerated incubators

Energy efficient, precise temperature control, reliable temperature environment

- Temperature range of +5 to +70°C
- Peltier technology to maintain the precise temperatures for reliable results and excellent temperature uniformity
- Sophisticated timer function with weekly, daily or real time mode and 10 step programmability function
- No hazardous refrigerants and low energy consumption

Item Code	Description	Unit	Price
HEA51031562	IMP180 Refrigerated incubator 178 L	EA	\$7,500.00
HEA51031565	IMP400 Refrigerated incubator 381 L	EA	\$10,460.00

Thermo Scientific Heratherm general protocol ovens

Carry out daily laboratory work with our general protocol ovens, designed with sample protection as top priority

- Choice of gravity convection for gentle drying or mechanical for fast drying and superior chamber spatial uniformity
- Large easy to view vacuum florescent display with on/off timer
- Temperature range up to 250°C, optimally suited for everyday heating and drying applications
- Inner chamber made from corrosion resistant stainless steel with rounded corners for easy cleaning

*15 amp plug required

Item Code	Description	Unit	Price
HEA51028139	OGS60 65 L Gravity convection oven	EA	\$2,175.00
HEA51028140	OGS100 105 L Gravity convection oven*	EA	\$3,160.00
HEA51028141	OGS180 176 L Gravity convection oven*	EA	\$4,190.00
HEA51028151	OMS60 62 L Mechanical convection oven	EA	\$2,920.00
HEA51028152	OMS100 97 L Mechanical convection oven*	EA	\$3,760.00
HEA51028153	OMS180 170 L Mechanical convection oven*	EA	\$4,990.00

Sartorius™ Entris® balances

Get the reliability and quality of a Sartorius balance, but only pay for the features you really need

- **Wide range:** Capacities range from 120 g to over 8 kg with readabilities from 0.1 mg to 1 g
- **Integrated applications:** Including underpan weighing, animal weighing and counting
- **User friendly operation:** Easy navigation with function keys for ease of use, high contrast and backlit display offer excellent visibility
- Optional internal adjustment for optimal weighing accuracy and operating convenience

Item Code	Description	Unit	Price
SARENTRIS124I-1S	Entris balance 120 g x 0.1 mg internal calibration	EA	\$3,370.00
SARENTRIS224I-1S	Entris balance 220 g x 0.1 mg internal calibration	EA	\$3,892.00
SARENTRIS323I-1S	Entris balance 320 g x 1 mg internal calibration	EA	\$2,515.00
SARENTRIS2202I-1S	Entris balance 2200 g x 0.01 g internal calibration	EA	\$2,560.00
SARENTRIS6202I-1S	Entris balance 6200 g x 0.01 g external calibration	EA	\$3,370.00
SARENTRIS5201-1S	Entris balance 5200 g x 0.1 g external calibration	EA	\$1,846.00
SARENTRIS8201-1S	Entris balance 8200 g x 0.1 g external calibration	EA	\$2,085.00

Labconco™ FreeZone™ freeze dry systems

Make anything possible with our broad line of freeze dryers

FreeZone freeze dryers are designed to handle the lyophilisation needs of research and pilot plant laboratories. Collectors available in -50°C and -84°C with capacities ranging from 2.5 to 18 litres. Special 4.5 litre -105°C for samples containing dilute methanol and ethanol.

- Get consistent, high quality results
- Make challenging samples easy
- Plug and play control of drying accessories with many new accessories that are specific for sample types
- All sizes are available with PTFE-coated collectors that can withstand corrosive compounds
- Choice of benchtop or mobile console models

Freeze dryers for today

Built to empower scientists and researchers; your lab will work smarter with the advanced Lyo-Works™ operating system in our latest FreeZone freeze dryers

- On-board collection of sample data with real-time graphing, including collector temperature, vacuum level, and drying accessory parameters
- Alerts and status updates come to you via email
- Exclusive End-Zone™ end point detection accessory notifies you when your samples are dry (no more uncertainty and over drying)
- Keep data at your fingertips. Program parameters and monitor status in real time, and even store your data for repeat protocols and analysis
- Security settings that protect parameters from being changed

Novasina water activity meters

Take the risk out of food manufacturing and reduce the risk of product recalls

Unwanted bacterial or fungal growth poses a health hazard and risk to profit and reputation. Novasina water activity meters can minimise this risk by ensuring your food samples are at an acceptable water activity level. In addition Novasina water activity meters may help compliance with overseas export regulations.

Simple to use

- Load raw sample, close lid, obtain value
- Set “pass or fail” parameters for samples with LabTouch and LabMaster-Neo models
- Fast user calibration procedure with reusable standards
- Exportable results for QC Managers

Wide application capability

- From low to high water content foods
- LabTouch and LabMaster-Neo manages temperature to ensure accurate reporting of sensitive samples

Please contact our customer service team on 0800 933 966 to find out more.

Endecotts sieves

For accurate, dependable results you can rely on Endecotts sieves thanks to their quality of manufacture.

Endecotts sieves are designed and manufactured to offer qualities that make them extremely precise and accurate whilst offering good handling, nesting and strength.

Whether it's a standard test sieve, or something special for such things as coffee or agriculture you'll find all feature meticulous quality in design and manufacture.

Endecotts sieves available from Thermo Fisher Scientific are supplied in a complete range of sizes, depths, materials and certification.

Please contact our customer service team on 0800 933 966 to find out more.

Konica Minolta™ CM-5 spectrophotometer

The CM-5 brings advanced spectrophotometer capabilities in a compact and easy to use format. Ideal for food laboratories, the instrument features a fully guided operation enabling rapid analysis of samples for colour, reflectance, transmittance and whiteness.

Utilise the direct mode for quick and simple colour analysis of solids or the petri dish system for granular or semi solid samples. Transmittance cells can be used to measure liquids in seconds.

Featuring full data analysis and interpretation, on-board method and results memory, fully loaded standards and user management, the CM-5 is the perfect partner for quality control or product development.

CR400/CR410 colour meters

The benchmark portable colour meter where customers require the convenience of a pure L*A*B* or similar colour instrument. Many other colour scales are also available.

Able to do pass/fail, maintain required colour tolerances, store results, use in-situ with various adaptors to suit solids, liquids, pastes and granular material. These are ideal for reliable and fast colour measurements.

CR-20 colour meter

This instrument can be utilised to control colour from raw materials through the process of manufacturing.

It can also quantify the effect that storage or transportation has inflicted on the whiteness of a product.

The CR-20 fits comfortably in the palm of your hand. It is battery-operated and light-weight, so it is extremely portable.

Bellingham + Stanley Refractometer

The use of a benchtop refractometer facilitates convenient and rapid measurement of concentration in a number of liquid and semi-solid samples.

Food applications include the measurement of sugar in grape must and other fresh fruit, processed food, sugar solutions and beverages. Starch, honey and salt solutions may also be measured.

The Bellingham + Stanley RFM340-T Series of high precision Peltier temperature controlled benchtop refractometers, featuring a wide measuring range up to 1.70 RI and new 7" touch-screen user interface, are ideally suited for use in applications within the food and beverage, pharmaceutical, flavours and fragrance industries.

The instrument's new case is ergonomically designed so that any spills are dealt with by the sloping shape of the case or by the PEEK spill barrier that surrounds the shallow, easy-clean stainless steel prism dish. The prism dish is shaped to hold sufficient sample for measurement whilst regaining a large enough surface area for rapid temperature stabilisation to occur.

Please contact our customer service team on 0800 933 966 to find out more.

Brookfield viscometer

A versatile viscometer that allows viscosity measurement over a wide range of viscosities

- Compatible with a wide variety of accessories to measure viscosities from water to semi solids
- Storage of methods and data either internally or on USB device
- Easy to use touch screen for access to a large variety of functions
- 200 speeds for extensive rheological evaluation
- Supplied complete with set of spindles, carrying case and laboratory stand

Item Code	Description	Unit	Price
BRORVDV2T	Brookfield Model RVDV2T viscometer includes stand, carrying case, spindles	EA	\$6,975.00

Double your capacity and save

The Thermo Scientific™ HERAcCell™ VIOS CO₂ incubator is specifically designed to deliver the performance, reliability, ease of operation, and value required to support a range of culturing needs, from basic research to demanding, leading-edge applications so you're ready for whatever comes next.

THRIVE active airflow

- In-chamber fan gently distributes clean, humidified air throughout the chamber ensuring homogeneous conditions
- Fast recovery of all parameters - ten minutes or less for stable culturing conditions
- Auto-stop function disables fan operation during door openings to minimise air exchange
- In-chamber HEPA continuously filters the entire chamber air volume every 60 seconds

Steri-Run, high temperature disinfection cycle

- Overnight cycle simplifies cleaning and eliminates the need for separate autoclaving of parts
- 180°C cycle assures uniform, 6-log sterilisation on all chamber surfaces eliminating biological contaminants

In situ sensors and probes

- Dual temperature probes for over temperature protection with operational back up
- Choice of thermal conductivity (TC) with rH compensation or single beam, dual wavelength infrared (IR) CO₂ sensor

Save now

Our double capacity incubator package including 2 x HERAcCell VIOS 160i CO₂ incubators with stainless steel interior and TC sensor and free Stacking adaptor with roller dolly

Please contact our customer service team on 0800 933 966 for a quotation.

Item Code	Description
HEA50145502	HERAcCell VIOS 160i CO ₂ Incubators with stainless steel interior and TC180 CO ₂ Sensor Package includes: 2x CO ₂ incubators, 1x stacking adaptor and 1x roller dolly

Protect routine samples:

Selecting the right cold storage equipment has become a critical decision for today's laboratory

Laboratories today are recognising the key differences between standard refrigerators and freezers and those designed specifically for protecting precious samples.

There are three main types of refrigerators and freezers for three specific needs:

Those built for laboratory applications

These refrigerators and freezers are designed to store high value, critical samples, reagents, enzymes and cells. They're specifically engineered to meet the demanding temperature requirements of these valuable items. Sample integrity and protection is paramount.

Those built for domestic use and those built for retail and catering sector

These products are designed for household (such as eggs, meat and cheese) and commercial groceries (such as bottled water, and bulk storage food). If the units' temperature fluctuates outside the required limits, these items will be inexpensive to replace.

The right choice for sample storage

The Thermo Scientific GP Series includes medium and large capacity refrigerators and freezers designed for routine sample protection. With capacity ranging from space-saving to spacious, our new GP Series lab refrigerators and freezers meet the demands of today's laboratory requirements. All models contain sample protection features designed for the rigorous demands of the laboratory environment.

All GP Series models deliver the sample protection, performance, security and quality you have come to depend on from us:

- Integrated controller
- Digital display
- Low energy consumption
- Choice of glass or solid door (refrigerators only)
- Forced air circulation
- Automatic defrost
- HCFC- and CFC-free insulation
- Reversible doors (R/F 400 and R/F 700 models only)
- High and low temperature alarms
- Door ajar alarm
- Remote alarm contacts
- Standard door locks
- Standard casters
- Access ports
- Interior fluorescent lighting

LPI151142	Tip pipette Oxford type white 10-200 µL	1000pcs	14	\$10.45

Rubber stoppers and tubing

Item Code	Description	Unit	Stock on Hand	Price
LBST95-15M	Tubing rubber gas bore 10 mm wall 4 mm 15 m	EA	1	\$80.10
LBSRB48	Rubber stopper 48 mm solid	EA	17	\$7.55

Swabs and strips

Item Code	Description	Unit	Stock on Hand	Price
LPI112191	Swab wooden shaft cotton tip non-sterile 150 mm	3000pcs	10	\$59.40
C-P99532-33	Test strips chlorine dioxide 0-10 ppm	50pcs	10	\$19.95

Spinbars

Item Code	Description	Unit	Stock on Hand	Price
BAT37135.0000	Spinbar spinvane PTFE triangular fits 3-5 mL vials	EA	31	\$14.55

Counters

Item Code	Description	Unit	Stock on Hand	Price
LABT010	Counter tally four digit	EA	7	\$23.65

Lab coats

Item Code	Description	Unit	Stock on Hand	Price
FSH19-130-1467A	AlphaPro lab coat white elastic cuff small	30pcs	1	\$227.40

Soap

Item Code	Description	Unit	Stock on Hand	Price
TOR400501	Soap mild liquid perfumed no 55 Mevon 1 L	6pcs	4	\$83.35

Pitchers

Item Code	Description	Unit	Stock on Hand	Price
FSBFB59229	Filter paper grade 41 20 µm 125 mm	100pcs	2	\$62.95

General lab equipment

Item Code	Description	Unit	Stock on Hand	Price
BARM16710-33Q	Vortex mixer maxi mix I	EA	1	\$312.00
BARM65820-33	MaxiMix III vortex mixer 100-2200 rpm	EA	1	\$1,330.00
FSH11748392	Dryer microscope slide dryer	EA	1	\$1,110.00
IKA4050000	RW 47 digital overhead stirrer	EA	1	\$8,675.00
OWLMP-12C	Comb 12 tooth 0.8 mm thick	EA	1	\$37.00
OWLPSL-5	Power supply leads	EA	4	\$25.25
VELA00000169	Suction cap and drip tray for DKL20 DK20	EA	2	\$1,080.00
VELA00000190	Support System for DK 42/26 DK20	EA	1	\$605.00
VELA00001062	Magnetic stir bar 3x6 mm	EA	2	\$6.30
VELS10230146-DEMO	BOD EVO Sensor System 6 230V/60Hz	EA	1	\$2,965.00

Waterbaths

Item Code	Description	Unit	Stock on Hand	Price
BAR18102A-1CEQ	Aquabath unstirred 20 L waterbath with lid	EA	2	\$1,995.00
HAK152113A	Sahara heated waterbath SC100-S13	EA	1	\$1,475.00
HAK152121A	Sahara heated waterbath SC100-S21	EA	2	\$2,400.00
HAK152130A	Sahara heated waterbath SC100-S30	EA	4	\$2,525.00
HAK152149A	Sahara heated waterbath SC100-S49	EA	4	\$3,540.00
HAK160-0040	Lid flat with handle for S49 tank	EA	4	\$306.00
HAK1600129	Bridge extension plate for S49 to fit cooling coil	EA	1	\$312.00

Pumps and tubing

Item Code	Description	Unit	Stock on Hand	Price
C-P07522-20	Masterflex precision digital drive 0.1-600 rpm	EA	1	\$3,050.00
C-P07554-95	Pump Masterflex drive l/s 20-600 rpm	EA	2	\$1,057.00
C-P40613-47	Tee connector PP L/S 16 3-3.2 mm ID tubing	10pcs	1	\$20.00
C-P06438-10	Tubing cutter benchtop	EA	1	\$23.00
C-P06411-70	Tubing silicone 6.4 x 7.9 mm 25 ft	EA	1	\$80.40
C-P06424-16	Tubing C-flex 0.125 in ID 25ft	EA	1	\$58.60
C-P96143-04	Tubing vacuum black rubber 1/4 in ID x 1/2 in OD 25 ft	EA	1	\$195.00
C-P96400-18	Tubing silicone peroxide No. 18 25 ft	EA	1	\$119.00
C-P96410-14	Tubing silicone platinum No. 14 25 ft	EA	1	\$84.40
C-P96410-16	Tubing silicone platinum No. 16 25ft	EA	1	\$90.15
C-P96605-13	Tubing PVC 1/2 in ID x 3/4 in OD 50 ft roll	EA	1	\$58.70

Acids

Item Code	Description	Unit	Stock on Hand	Price
ACR149570025	Valeric acid 99%	2.5 L	2	\$111.00
AJA559-250G	Trichloroacetic acid UNILAB	250 g	3	\$22.00
AJA270-500ML	Lactic acid 85% UNIVAR	500 mL	2	\$19.00
FSBP/1280/PB17	Perchloric acid 70% Certified AR	2.5 L	1	\$235.00
AJA663-10KG	EDTA free acid UNIVAR	10 kg	3	\$525.00
AJA256-2.5LGL	Hydrochloric acid 32% UNIVAR	2.5 L	1	\$16.00
AJA1-20L	Acetic acid glacial UNIVAR	20 L	6	\$129.00
FSBS/9200/PB17	Sulphuric acid 95-98% low in nitrogen	2.5 L	1	\$32.00
FSBJ/4310/17	Hydrochloric acid 5 M	2.5 L	1	\$30.00
AJA270-2.5LPL	Lactic acid 85% UNIVAR ACS	2.5 L	1	\$54.00

Buffers

Item Code	Description	Unit	Stock on Hand	Price
ACR172570000	HEPES for biochemistry 99%	10 kg	2	\$1,372.00
FSBPP310-5	HEPES buffer molecular biology grade	5 kg	1	\$774.00
AJA2492-1L	Buffer solution pH 9.2 coloured turquoise	1 L	1	\$9.00

Miscellaneous chemicals

Item Code	Description	Unit	Stock on Hand	Price
AJA8100072-50	Buffer tablets pH 7.2 1 L LABCHEM	50pcs	3	\$31.00
AJA613-2.5LPL	pH Universal indicator solution LABCHEM	2.5 L	3	\$38.00
TCHZ1075	Natural bleaching earth AOCS 4 lb can	1.82 kg	1	\$46.00
BSPVL727.2.5	EDTA disodium salt solution 0.1 M Volusol	2.5 L	21	\$25.00
TCH44718-500G	Sand white acid washed	500 g	69	\$2.00
AJA6249-25G	Agarose ME for electrophoresis	25 g	4	\$57.00
ACR196005000	Gold standard solution for AAS 1000 ppm	500 mL	6	\$439.00
FSBM/3754/90	Mercury spill clean-up kit	1 kit	5	\$154.00
AJA1402-100ML	Antifoam Silicone Liquid TECHNICAL	100 mL	6	\$9.00
TCHPROXITANE30-225KG	Proxitane 30 peracetic acid sanitiser	225 kg	5	\$770.00
FSBJ/7300/PB08	Schiffs reagent laboratory solution	500 mL	5	\$110.00
TCH4470.8-500G	Sand acid washed	500 g	8	\$8.00
FSBSF105-4	Fisherbrand FL-70 cleaner concentrate	4 L	2	\$56.00
ACR258550010	Copper(II)-ethylenediamine complex 1 M	1 L	4	\$100.00
APPA7089.0500	DNA - Exitus Plus	500 mL	4	\$68.00

FSBJ/4100/08	Folin & Ciocalteus phenol reagent	500 mL	1	\$232.00
M-N90212	Paper indicator pH 8.0-10.0 7 mm x 5 m reel	5 reels	5	\$12.00
M-N91351	Quantofix nitrate/nitrite test strips	100pcs	5	\$36.00

Dries

Item Code	Description	Unit	Stock on Hand	Price
ACR130830050	2-Phenyl-2-propanol 99%	5 g	3	\$42.00
ACR291820250	Sodium triacetoxyborohydride 97%	25 g	1	\$49.00
AJA1241-500G	Sodium lauryl sulphate TECHNICAL	500 g	4	\$20.00
AJA1126-1KG	Maltose bacteriological LABCHEM	1 kg	2	\$105.00
ACR201350025	Potassium fluoride anhydrous extra pure 99%	2.5 L	4	\$286.00
ACR419565000	Sodium iodate reagent powder 99%	500 g	2	\$232.00
AJA1364-500G	D-Glucose anhydrous UNILAB	500 g	1	\$12.00
